Best Practices in Texas Juvenile Probation Research

Moderator: Pernilla Johansson (Director of Research and Planning at TJJD)

In this session, Harris, Bexar, and Tarrant juvenile probation departments will present best practices in data collection, research, and data-informed decision making to improve outcomes for youth in the juvenile system.

(1) Mental Health Dosage Capture and Reporting

Presenter: Carla Glover (Research Manager at Harris County Juvenile Probation Department)

Calculating dosage for youth program involvement is a challenging task. HCJPD will present their Juvenile Information Management System (JIMS2) which includes a calendaring feature for this information. Within the calendaring, an interaction between internal personnel and external providers is available and enhances data capture. In addition, various reports and/or data capabilities from this data will be discussed. HCJPD's mental health dosage programming will be utilized in examples.

(2) Predicting Risk to Reoffend: Validation of the Positive Achievement Change Tool

Presenter: Julie Martin (Research and Statistics Coordinator at Tarrant County Juvenile Services)

Tarrant County has utilized the PACT as their juvenile risk and need assessment since 2009. This presentation will focus on a recent validation study of the assessment. The results of the study will be presented and policy and programmatic implications discussed. The target audience for this presentation are those interested in gaining information on the PACT and risk assessment validation in general.

(3) Using Data to Structure Service Delivery

Presenter: Dennis Donelson (Information Manager at Bexar County Juvenile Probation)

Recidivism is increased by introducing children at low risk to re-offend into the juvenile justice system. By diverting those children, resources can be directed to higher risk youth. Reporting the effects of diversion, supervision and risk levels in their multiple combinations can help administrators design service delivery strategies. Bexar County has an on-demand, real-time report on these outcomes. Target audience: Data coordinators, analysts, research specialists, administrators.

Beyond the Monthly Extract – Making JCMS Work for You

Presenter: Laura Marroquin (Senior JCMS Systems Analyst at TJJD)

In this session we will provide suggestions of additional data entry in JCMS beyond what is reported to TJJD through the monthly extract process. We will look at how to use the standard JCMS reports to help with case management and to help identify potential data entry errors.

Data and the Legislative Session

Presenters: Laurie Molina (Manager of Criminal Justice Data Analysis Team at LBB), John Posey (Analyst at LBB), Kataria Jordan (Analyst at LBB), and Zachary Barr (Analyst at LBB).

Have you ever wanted to know what happens with the data your department submits but haven't had an opportunity to ask? This interactive session will provide you with an overview on how the juvenile justice population and expenditure data submitted by juvenile probation departments to TJJD are used by Legislative Budget Board staff. LBB staff will discuss how the data are used in generating juvenile justice correctional population projections; calculating costs per day; recidivism and revocation rates; and producing fiscal notes and criminal justice impact statements.

Everything New Data Coordinators Should Know

Presenter: Beverly Ratzlaff (JCMS System Analyst at TJJD)

A data coordinator is responsible for maintaining the juvenile probation department's data by ensuring that information is entered accurately and promptly. This session will review a Data Coordinator's responsibilities and provide standard practices for basic data entry in JCMS. This class is intended for new Data Coordinators. Standard Practices discussed in this session were previously discussed at last year's conference.

Grant Me Patience

Presenter: Tonya Gonzalez (Budget Analyst at TJJD)

This presentation provides an overview of TJJD grants, Grant Manager, budgets, expenditures, and reporting.

It Made a Difference to That One... Doing the Right Thing

Presenter: Judy McReynolds (Program Specialist at TJJD)

The World Health Organization defines health as a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity. This holds true for our juvenile justice population as well. Sections 62.106 and 62.107 of the Health and Safety Code and Sections 32.0264 and 32.0265 of the Human Resources Code address the suspension and automatic reinstatement of Medicaid eligibility for youth placed in and released from juvenile facilities to ensure that no Medicaid eligible youth falls through the cracks in being able to access their Medicaid benefits upon return to the community. This session will not only include an overview of the suspension and reinstatement process that rolled out in September 2016, but also an overview of the Juvenile Medicaid Tracker (JMT), the web-based application that was developed to meet the requirements of Sec. 531.02418 of the Government Code, which addresses the need for providing Medicaid/CHIP coverage in a timely manner for youth transitioning back into their homes from out-of-home placements.

JCMS Updates

Presenter: Tom Gunter (JCMS Trainer at TJJD)

This session is an overview of changes in JCMS from September 2016 - August 2017 for any JCMS user.

Describe changes in the program locations, online testing, and data used in the biannual JJAEP report provided to the Legislature every other year. Target Audience: Any coordinator that handles education information, JJAEP staff members, and county probation staff.

Legislative Update on Juvenile Records

Presenter: Nydia D. Thomas (Special Counsel, Legal Education & Technical Assistance at TJJD)

As the juvenile justice system in Texas continues to evolve, the expectation of confidentiality for youthful offenders must now be balanced with the onward march of the information age and the risks of the far-reaching consequences of unlawful conduct. In this session, data coordinators will be provided with an overview of the significant revisions to Chapter 58 of the Family Code. Participants will be guided through the legislative changes affecting confidentiality, information-sharing, and case management as well as the new sealing laws.
